## Environmental Policy

---

Laser Tech UK Limited recognises its obligations to comply with applicable environmental law and carry out its business in as environmentally sound manner as possible, in order to meet its responsibility to customers, shareholders, employees, neighbours and the natural environment.

We are committed to conducting business in a way that minimises the impact of our activities on the natural and human environment, including the prevention of pollution of the environment and other specific commitment(s) relevant to the context of our organization.

We are committed to promoting and maintaining an environmental policy to ensure that the impact of our operations on the environment is reduced to as low a level as is practically and economically feasible.

Our environmental policy is that we will: -

- Remain committed to the continual improvement of the environmental management system to enhance environmental performance
- Remain committed to complying with the letter and the spirit of international and national legislation and local regulatory controls, as well as meeting industry standards and operating to applicable Codes of Practice or other requirements
- Periodically review our operations in order to minimise our impact on the environment
- Endeavour to reduce the amount of waste produced and dispose of such waste in a safe and responsible way, re-using or recycling where applicable
- Monitor and measure all environmentally significant emissions and discharges to water, air and land to minimise environmental impact
- Establish methods to prevent pollution and conserve energy where possible and undertake programmes to continuously improve our environmental performance
- Promote environmental principles by sharing and exchanging information of environmental importance with regulatory bodies, professional associations, customers, suppliers, contractors and employees
- Establish environmental training needs within the Company and maintain training programmes
- Develop and maintain an environmental management system, setting objectives and targets, as well as reviewing this Environmental Policy, on a regular basis
